Is Your Assessment Fair?

Tax time can be demoralizing and confusing, but it also represents a great opportunity for many golf courses and clubs to improve their bottom line through a potential reduction in real estate tax assessments. This year, 2015, is your next best opportunity to make an impact.

Golf Property Analysts (GPA) has provided numerous clients (golf courses/clubs and taxing authorities) with appraisal and litigation support services that helped to achieve fair assessments.

We're golf property appraisal and assessment experts. Let's talk about how we can help your club.
